Education

Program	Institute	CGPA/Percentage	Year
Bachelor of Technology (B.Tech)	Indian Institute of Technology, Jodhpur	7.94/10	2023-Present
Senior Secondary (Class 12)	Oxford P.U College	96.16%	2023
Secondary (Class 10)	V.L.S International School	97.67%	2021

Experience

- **Accenture** *May 2026 – Jul 2026*
  Advanced Application Engineering Analyst Intern Bengaluru
  - Developed a Python-based phishing email analyzer that automated first-pass SOC triage by parsing raw `.eml` files, validating SPF/DKIM/DMARC records, and extracting Indicators of Compromise (IOCs).
  - Engineered a modular 5-stage pipeline for email parsing, IOC extraction, threat-intelligence enrichment, weighted risk scoring, and interactive visualization using Streamlit.
  - Integrated VirusTotal, AbuseIPDB, and URLScan.io APIs with caching and rate limiting, improving phishing detection from **19%** to **83%**.
  - Validated the solution on **8,612** phishing emails using **17** automated unit tests, achieving a **0.0–0.4%** false-positive rate and ensuring reliable phishing detection.

Projects

RideWise – Cross-Platform Ride Booking and Carpooling Platform | *Mar 2025 – Apr 2025*

- Developed a full-stack ride-booking application using React Native, Expo, Firebase, and Google Maps APIs.
- Implemented authentication, ride booking, trip history, and role-based access using Firebase Authentication and Firestore.
- Built real-time ride tracking with Google Maps APIs and Firebase Realtime Database, delivering live route visualization with sub-**300 ms** location updates.
- Developed backend workflows for customers, drivers, and administrators with analytics and notifications.

Cryptonix – Blockchain Mechanics Simulation Platform | *Sep 2024 – Nov 2024*

- Architected a blockchain simulator implementing Proof-of-Work consensus, Merkle Trees, transaction validation, and block mining across **50**+ simulated blocks.
- Built a React.js dashboard for wallet management and blockchain visualization across 1,000+ transactions.
- Integrated SHA-256 hashing and OpenSSL digital signatures using 256-bit keys.
- Implemented the simulator using C++, React.js, Firebase Firestore, and OpenSSL.

Technical Skills

- **Languages:** C, C++, Python, JavaScript, HTML/CSS
- **Frameworks:** React.js, React Native, Expo, Node.js, Streamlit
- **Backend & APIs:** REST APIs, Firebase Authentication, Firebase Cloud Functions, Google Maps API
- **Databases:** Firebase Firestore, Firebase Realtime Database, MongoDB, MySQL, SQLite
- **Security:** Splunk SIEM, CrowdStrike Falcon EDR, SPF/DKIM/DMARC, IOC Analysis, Threat Intelligence
- **Developer Tools:** Git, GitHub, Docker, Postman, Android Studio, VS Code
- **Core CS:** Data Structures, Algorithms, Object-Oriented Programming, DBMS, Operating Systems

Positions of Responsibility

- **Core Member** DevlUp Lab, IIT Jodhpur *Aug 2025 – May 2026*
- **Core Member** Programming Club, IIT Jodhpur *Aug 2025 – Apr 2026*
- **Senior Executive Member** E-Cell BIE, IIT Jodhpur *Apr 2024 – Apr 2025*
- **Assistant Head** Prometeo E-Conclave'25 – Ideathon *Dec 2024 – Jan 2025*

Certifications

- **Splunk SIEM Fundamentals** – Completed a 9-course learning path (19 credit hours).
- **CrowdStrike Falcon Security Operations** – Completed a 9-course industry training program.

Achievements

- Ranked **AIR 2375** in **JEE Advanced 2023** among **180,000**+ candidates.
- Secured **AIR 2661** in **JEE Main 2023** among **1.1 million**+ candidates.
- Achieved **AIR 8** in the National Mathematics Talent Contest (Inter Category), 2022.
- Rated **Specialist** on Codeforces with a maximum rating of **1409**.
